Phone: 8077099647

## Objective

To join in an institution which provides excellent faculty so that I can continuously enhance my skills and knowledge and to get involved in challenging the work where I can implement my learned skills and solve problems raised and find new ideas and ways to explore and to use it to the growth of my future.

## Education

S.No	Course	Name of the Institution	Board / University	Year of Passing	Aggregate
1.	B.Tech (IT)	Anurag Group Of Institutions	JNTUH	2018	76%
2.	Intermediate	Sri Gayatri Jr. College	Board of Intermediate Education	2014	91%
3.	10 <sup>th</sup> Standard	Narayana e-Techno	S.S.C	2012	9.2

## Technical Skills

- Programming Languages: C, C++, Java
- Web Technologies: HTML, XHTML, XML, JavaScript, JSP, ASP.NET and Servlets.
- Database: PL/SQL, SQL, Oracle (10g).
- Areas of interest: Web Technologies, Database Management System, Data Structures, Operating Systems, Network Security, Artificial Intelligence.
- Operating Systems: Microsoft Windows and Linux.
- Office Tools: Microsoft Office 2000, '03, '07, '10.
- Design Tools: Adobe Photoshop and Rational Rose.

## Technical Experience

- Designed a website for college technical festival  
Aagama2k17 Platform: web based project.  
Software's used: xampp server and sql data base.  
Description: Its is a website which contains all the details about events conducted by different departments. When an event is selected, it provides the information like how the event is conducted and the details of the co-ordinators. We also included a register option by which a student can get registered.

## Projects

- Mini Project- Document Management  
System Platform: web based application.  
Software's used: xampp server and sql data base.  
Description: This application can manage all the documents of an organization. We have considered a scenario of our college where we have many branches. Each branch can use their unique ID and password to upload documents of their respective branch. The chairman can view all the uploaded files and can send feedback on them.
- Internship in Minusoft India Private  
Limited Platform: web based application.  
Software's used: xampp server and sql data base.  
Description: A website for anti-virus company where a customer can buy anti-virus license and payment through payment gateway. Admin can upload a list of licenses from time to time. Dealers can download dealer certificate, update profile, view license keys purchased with status, open support tickets.

## Web Development

- Project 1:  
I have designed a website with three webpages which include index.html, table.html and documentation.html. In which there will be a smooth flow from one page to another. The index.html includes a list that points to the other two pages. The table.html page contains the data of top CEOs' in a table format. The description.html page will redirect to the further description of CEOs'.
- Project 2:  
I have designed a responsive table. When we give the data into the table, a new cell is created and the data will be stored in it.
- Project 3:  
I have designed a webpage for conducting a survey. The webpage has a login page and this page has functionalities like create a new user, forgot password and forgot user. Once you login, it redirects to a page where you can have a glance of what kind of survey you will be taking. From there, you will be able to take the survey.

## Job Experience

- Machine Learning Data Associate  
Currently working as a Machine Learning Data Associate in Amazon. My role is to develop the smart devices such as Echo which are made of Artificial Intelligence.

## Honours and Activities

- Attended workshops on Web Application development, HTML5, CSS3, Tizen OS
- MTA certification on database fundamentals (Microsoft SQL Server)
- Qualified for 2<sup>nd</sup> round in EnginX organized by the TCS
- Organized an event in college fest
- Member of NSS and Member of CSI student chapter

Hobbies: Photography, Drawing and Badminton.
